### oakmoss

BY SHERWIN-WILLIAMS

“At first, my clients were a little wary about using such a bold color in a nook. Once it was done, though, they were in love! The earthy hue turned the space into a cozy cocoon. It’s the kids’ favorite spot to hang out with a book.”

### passion fruit punch

BY BEHR

“I decided to take advantage of living alone and paint my walls pink. My Instagram followers voted for this vibrant sunset shade. The warmth plays well with the chartreuse headboard but still lets it make a statement.”
