I'm also genuinely impressed they were able to narrow it down to five! And what a privilege to not only honor this talented crew now but to witness what I'm sure will be continued professional achievement. I'm excited for the next generation of New England design!"

Kathy Bush-Dutton, the publisher of *New England Home*, adds, "We were amazed by the range of talent in this year's submissions--our judges had their work cut out for them! Even so, the panel of judges selected five incredibly talented young women. The 2021 5 Under 40 winners are already producing spectacular projects throughout New England, and will continue to produce amazing work throughout the region for years to come!"

About the 5 Under 40 Awards

Now in its twelfth year, the 5 Under 40 Awards spotlight the hottest emerging talent in high-end residential design, including architecture, interior design, landscape design, and specialty design such as textiles, furniture, or home accessories, in New England. Each year, the 5 Under 40 winners partner with presenting sponsor Landry & Arcari Rugs and Carpeting to design their own one-of-a-kind rugs, all five of which will be auctioned off at our awards celebration on **Thursday, September 16**. All auction proceeds go to [Barakat](#), a Cambridge, Massachusetts-based nonprofit dedicated to providing exemplary basic education in Southeast Asia that advances literacy and increases access to secondary education, primarily for girls and women.
